

# nanodeck<sup>®</sup> Anti-fog produced by nanodeck<sup>®</sup>

## Nanomaterial description

1. Material source or producer: Not reported
2. Manufacturing process: Not reported
3. Appearance: Not reported
4. Chemical composition: Not reported
5. Physical form/shape: Not reported
6. Purity: Not reported
7. Size distribution: Not reported
8. Solubility: Not reported
9. State of aggregation or agglomeration: Not reported
10. CAS number (if applicable): Not reported

## Product description

Anti-fog product. Information about the nanomaterials used in the product is not available just as information about the location of the nanoelement in the product is also not available.

## Applications

## Exposure potential for professional end-users

Given that the location of the nanoelement of the product is unknown, we concluded that the overall ***Exposure potential for professional end-users is*** •

## APPENDIX 1: NanoRiskCat●●●|◆◆ Template

### Consumer exposure potential

Given that the location of the nanoelement of the product is unknown, we concluded that the overall Exposure potential for consumer is •

### Environmental exposure potential

Given that the location of the nanoelement of the product is unknown, we concluded that the overall Environmental exposure potential is •
