

Anabolic Vitakic produced by MuscleTech

Nanomaterial description

1. Material source or producer: Not reported
2. Manufacturing process: Not reported
3. Appearance: Not reported
4. Chemical composition: Not reported
5. Physical form/shape: Not reported
6. Purity: Not reported
7. Size distribution: Not reported
8. Solubility: Not reported
9. State of aggregation or agglomeration: Not reported
10. CAS number (if applicable): Not reported

Product description

Dietary supplement claimed to “use...Nanoparticulation Technology”.

Applications

5 caplets a day with a glass of water and take with food. Do not exceed 5 caplets in a 24-hour period.

APPENDIX 1: NanoRiskCat●●●|◆◆ Template

Exposure potential for professional end-users

Given the nature of the product, exposure for professional end-users is to be expected. Oral exposure is the main route of exposure as the product is intended for consumption.

Hence we concluded that the overall **Exposure potential for professional end-users is** ●

Consumer exposure potential

Given the nature of the product, consumer exposure is to be expected. Oral exposure is the main route of exposure as the product is intended for consumption.

Hence we concluded that the overall **Exposure potential for consumer is** ●

Environmental exposure potential

Environmental exposure to the product is possible. Although the product is intended for consumption and the content of the caplets is intended to be taken up in the human body, it is highly likely that at least some of content of the caplets will be excreted and via the Sewage Treatment Plants go into water recipient and soil.

Hence we concluded that the overall **Environmental exposure potential is** ●
