

# Active Carbon Silver Nano Filter produced by Biomat Global

## Nanomaterial description:

1. Material source or producer: Not reported
2. Manufacturing process: Not reported
3. Appearance: Not reported
4. Chemical composition: Ag
5. Physical form/shape: Not reported
6. Purity: Not reported
7. Size distribution: Not reported
8. Solubility: Not reported
9. State of aggregation or agglomeration: Not reported
10. CAS number (if applicable): Not reported

## Product description

Water filter. The location of the nanoelement of the products is unknown.

## Applications

## Exposure potential for professional end-users

Given that the location of the nanoelement of the product is unknown, we concluded that the overall Exposure potential for professional end-users is ●

## APPENDIX 1: NanoRiskCat●●●|◆◆ Template

### Consumer exposure potential

Given that the location of the nanoelement of the product is unknown, we concluded that the overall Exposure potential for consumer is ●

### Environmental exposure potential

Given that the location of the nanoelement of the product is unknown, we concluded that the overall Environmental exposure potential is ●
