

BioCera A produced by BioCera Inc

Nanomaterial description:

1. Material source or producer: Not reported
2. Manufacturing process: Not reported
3. Appearance: Not reported
4. Chemical composition: Ag
5. Physical form/shape: Not reported
6. Purity: Not reported
7. Size distribution: Not reported
8. Solubility: Not reported
9. State of aggregation or agglomeration: Not reported
10. CAS number (if applicable): Not reported

Product description

The location of the nanoelement in the product is unclear.

Applications

Exposure potential for professional end-users

Given that the location of the nanoelement of the product is unknown, we concluded that the overall *Exposure potential for professional end-users is* ●

APPENDIX 1: NanoRiskCat●●●|◆◆ Template

Consumer exposure potential

Given that the location of the nanoelement of the product is unknown, we concluded that the overall *Exposure potential for consumers is* ●

Environmental exposure potential

Given that the location of the nanoelement of the product is unknown, we concluded that the overall *Environmental exposure potential is* ●
