

# FX Cruiser Sho produced by Yamaha® Motor Corporation, USA

## Nanomaterial description

1. Material source or producer: Not reported
2. Manufacturing process: Not reported
3. Appearance: Not reported
4. Chemical composition: Not reported
5. Physical form/shape: Not reported
6. Purity: Not reported
7. Size distribution: Not reported
8. Solubility: Not reported
9. State of aggregation or agglomeration: Not reported
10. CAS number (if applicable): Not reported

## Product description

Jet ski. Nanomaterial and the location of the nanoelement in the products are unclear as the manufacturers state that : “NanoXoel® Ultra-lightweight Hull and Deck”

## Applications

## APPENDIX 1: NanoRiskCat●●●|◆◆ Template

### Exposure potential for professional end-users

It is impossible to evaluate the exposure potential for professional end-users as the both the nanomaterial used and the location of the nanoelement in the product are unknown.

Hence we concluded that the overall **Exposure potential for professional end-users is** ●

### Consumer exposure potential

It is impossible to evaluate the exposure potential for consumers as the both the nanomaterial used and the location of the nanoelement in the product are unknown.

Hence we concluded that the overall **Exposure potential for consumers is** ●

### Environmental exposure potential

It is impossible to evaluate the environmental exposure potential as the both the nanomaterial used and the location of the nanoelement in the product are unknown.

Hence we concluded that the overall **Environmental exposure potential is** ●
