

EASY BREATH FFP2 NR D ANSIGTSMASKE

Nanomaterial description

1. Material source or producer: Not reported
2. Manufacturing process: Not reported
3. Appearance: Not reported
4. Chemical composition: Not reported
5. Physical form/shape: Not reported
6. Purity: Not reported
7. Size distribution: Not reported
8. Solubility: Not reported
9. State of aggregation or agglomeration: Not reported
10. CAS number (if applicable): Not reported

Product description

It is assumed that the nanoparticles are suspended in the surface of the product.

Applications

APPENDIX 1: NanoRiskCat Template

Exposure potential for professional end-users

Given the nature of the product and the location of the nanoelement, exposure for the professional end-users is to be expected as the product is to be used directly on the skin.

Hence we concluded that the overall *Exposure potential for professional end-users is* 

Consumer exposure potential

Given the nature of the product and the location of the nanoelement, consumer exposure is to be expected as the product is to be used directly on the skin.

Hence we concluded that the overall *Exposure potential for consumers is* 

Environmental exposure potential

Given the nature of the product and the location of the nanoelement, environmental exposure is to be expected.

Hence we concluded that the overall *Environmental exposure potential is*
